Property Description

Super Private 4.32 acre parcel within walking distance to the beach located along the northern sector of the Costa Ballena within 400 meters of the north end of Hermosa Beach. Property has a nice long private drive that passes multiple building sites along the way leading to a large ample building pad at the very top of the lot offering demanding views to the beach below, and the north end of the jungle point known as Punta Achiote. Perfect parcel, for multiple structures, or boutique bungalows or tree house style units. One of the few parcels that can be subdivided. There is a year round river as one boundary, and this section is heavily forested, and is an excellent wildlife corridor! One of the few available parcels within walking distance to the beach offering the stunning views!
