- Ocean View

Property Description

This is one of the best ocean view lots available on the market right now. It is part of phase 2 of Paradise Breezes, a very high end exclusive gated community located between Dominical and Hatillo just off the coastal highway. The road from the highway to the lot is about 1 km and most of it is paved. This is something you don't find very often in Costa Rica. The property is ready to be built on with power and water on site. The views from this property are spectacular. It is perched on the very front ridge and the ocean views are jaw dropping. You can see the waves breaking for 30 kms up the coast and the all year sunsets are incredible. Paradise Breezes has a very successful rental program and on site property management company like no other in the area. All of the rental homes in the community are VERY profitable. This is the only lot available in the community with views like this. It is rare that a property like this becomes available and it will not last long!!!
