Property Description

Casa Escarlata was one of the original "John Frazier" model homes built over 25 years ago in Las Huacas. Although this is a cozy two bedroom bungalow could be remodeled and turned in to an amazing escape, the value in this property is in the land and the fact that it has the best unobstructed ocean view possible. The property is large enough to at least split in to tow nice size view lots of greater than 2,500 m2. Since it is at the end of a cul de sac the privacy is second to none and the hillside elevation will prevent anyone from ever obstructing this spectacular view.
