- Status: Active/Published
- Parking Spaces

Property Description

This piece of art with Balinese styles, is located in a small gated community, which gives even more privacy to the property, and only 5 minutes from town. The house has two large rooms and a small additional room for guests that could be extended to become a guest house. The location of the property provides views towards two different points, the front of the house points to the north and the rear to the southeast. In the lower part of this house there are enough spaces to build an additional room if desired. It has an entertainment area near the pool that can be used for BBQ or simply to read or drink coffee at any time while watching nature in the distance. Do not think twice and make this your dream place. Contact me and let's schedule a visit!
