Property Description

This beautiful property is located a little less than 4 miles from the center of Atenas. A few meters from the main road Route 3 and still maintaining the tranquility that you are looking for since the sounds of the vehicles go unnoticed. It is a dead end street, where this house is the last. The following property is a farm in which there is no construction. It is a property with a year of construction, modern style, ready for you to move in with only your clothes as it is sold fully furnished. It has smart switches, hot water throughout the house that is generated by means of a solar panel, and has CCTV in all its surroundings and also an office space. From the property there are very good views, from where you can see 4 different volcanoes. Contact us and we will schedule a visit.
