Property Description

Mango Manor Ridge – A Premier Property with Stunning Ocean Views in Dominical We will open this description with a simple statement: “There is no better place currently on the market in Southern Costa Rica to build a luxury estate.” Try to find another comparable, fully titled land parcel in the exclusive Dominical area, and you will eventually come right back here. Available for the first time in decades, Mango Manor Ridge is an extremely rare opportunity to acquire a flagship property with a highly coveted location in a luxurious coastal setting. This offering is comprised of two neighboring land parcels, totaling around 4 acres (16,169 m²), located on the front Dominical ridge of Fila Costeña Mountain Range. This is where the rainforest touches the sea in Costa Rica. At an elevation of 587’ above sea level, the topography here is unique and provides a setting that features cool ocean breezes and panoramic vistas normally associated with properties located much further away from the coast.
